

**THE GRAND
(LOWER CHURCHILL)
RIVER, LABRADOR**

**Who has the right to
destroy this treasured
river?**

Grand River is the most historic and ecologically diverse region of Labrador

The proposed dams will cause irreversible damage.

Mercury & Methylmercury contamination will rise!

Atlantic Salmon will be negatively impacted!

Important productive Boreal Forest in Labrador will be lost.

Drinking water wells may be impacted.

Tourism opportunities will be destroyed.

**A historic treasure could
be lost forever**
